- Release date: LV5600W June 2024 / LV7600W July 2024

Launch of WAVEFORM MONITOR LV5600W and RASTERIZER LV7600W

Leader Electronics Corporation (President: Kozo Nagao) is pleased to announce the release of the WAVEFORM MONITOR LV5600W and RASTERIZER LV7600W.

These new products, like the LV5600 and LV7600, support a wide variety of video and audio signals, including 12G-SDI, IP signals up to 4K 25G with Video Over IP, and compressed IP signals compatible with JPEG XS.

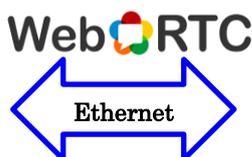

With the increasing number of remote production initiatives in broadcast programming and content production, more flexible and efficient operation is required at the production site, and the LV5600W and LV7600W use WebRTC technology to achieve real-time display and full control.
